ACADEMIC PROJECT

Rental Car Management System

Project Type: Web-Based Application | Technologies: HTML, CSS, JavaScript | Role: Front-End Developer

Designed and developed a web-based platform to automate and streamline car rental operations. The system enables customers to search for available cars, make bookings, and manage rental activities online, with profile-based and car-type-based booking features.

- Designed and developed the front-end interface.
- Created user-friendly web pages using HTML and CS

- Implemented interactive features using JavaScript.
- Developed booking functionality based on user profiles and car types.
- Worked on improving usability and overall user experience.

ACHIEVEMENTS & AWARDS

Winner – Inter-College Logo Design Competition

Recognized as the winner of an inter-college logo design competition for creative design and visual communication skills.

Two-Time Champion – Inter-College Photography Events

Won inter-college photography events on two occasions, demonstrating creativity, visual storytelling, and photography skills.
